INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
CBMC, Inc.
Chattanooga, Tennessee

We have audited the accompanying statements of financial position of CBMC, Inc. (a nonprofit organization) as of December 31, 2015 and 2014, and related statements of activities, functional expenses, and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of CBMC, Inc. as of December 31, 2015 and 2014, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

NOTE 1 – NATURE OF OPERATIONS

CBMC, Inc. (“CBMC”) is a nonprofit charitable organization incorporated under the laws of the State of Delaware in 1939. CBMC’s mission is to present Jesus Christ as Savior and Lord to business and professional men, and to develop Christian business and professional men to carry out The Great Commission. CBMC has many affiliated local teams that conduct meetings and are active in their communities independent of this organization. The financial statements of the local teams are not required to be and have not been combined with the financial statements of CBMC.

CBMC is classified as an organization exempt from federal income tax under Section 501(c)(3) of the U.S. Internal Revenue Code and has been classified as a publicly supported organization which is not a private foundation under Section 509(a) of the Code.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting

The financial statements of CBMC have been prepared utilizing the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America.

Financial Statement Presentation

Financial statement presentation follows the recommendations of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 958. Under FASB ASC Topic 958, net assets, revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

Unrestricted net assets – Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets – Net assets subject to donor-imposed stipulations that may or will be met, either by actions of CBMC or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. If net assets were released from restrictions by incurring expenses satisfying the purpose of the grant or contribution within the same reporting period, those net assets have been classified as unrestricted.

Permanently restricted net assets – Net assets subject to donor-imposed stipulations that they be maintained permanently by CBMC. Generally, the donors of these assets permit CBMC to use all or part of the income earned on any related investments for general or specific purposes.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents

CBMC considers all unrestricted highly liquid investments with an initial maturity of three months or less to be cash equivalents. Cash and money market accounts held in investment accounts are not considered cash equivalents by CBMC, as they are being held for the purpose of purchasing additional investments.

Promises to Give

Unconditional promises to give are recognized as support when received. Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Amounts expected to be collected in future years are recorded at the present value of their estimated future cash flows.

Inventories

Inventories consist of publications and other merchandise available for resale and are stated at the lower of cost or market. Cost is determined on a first-in, first-out basis.

Investments

Investments in marketable securities traded on a national securities exchange are stated at fair market value based on the last reported sales price on the valuation date. Other investments consist of insurance annuity contracts and certificates of deposit with original maturities of greater than three months, and are stated at cost, which approximates fair value. Net appreciation, or depreciation, in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments, is reported in the Statements of Activities.

Investment securities donated to CBMC are typically sold upon receipt or shortly thereafter and contribution income is recognized for the net proceeds.

Property held for sale is recorded at estimated fair value and consists of donated real estate.

Property and Equipment

Expenditures for property and equipment in excess of \$1,500 are capitalized at cost. Donated materials, supplies, and equipment, where significant in amount, are recorded as support at their estimated fair value.

Depreciation is provided on the straight-line method based on the following estimated useful lives of depreciable assets:

Furniture and equipment	3-10 years
Vehicles	3-5 years

DECEMBER 31, 2015 AND 2014

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Annuity Obligations

The liability for annuities is estimated based on the present value of expected future payments considering the beneficiaries' life expectancies and applicable discount rates based upon federal tables. An adjustment to the liability is recognized in the Statements of Activities for changes in the value.

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support. All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions.

Merchandise Sales

CBMC engages in the selling of publications to customers as an additional way to raise revenue throughout the year. Revenue on the sale of these publications are recorded when the requirements of a sale have taken place, and are recorded on the accrual basis congruent with generally accepted accounting principles.

Donated Services

CBMC receives various donated services that range from limited participation of individuals in fundraising and other activities to active participation in program services and administrative functions. Such services are not recorded as support and expenses as recognition criteria have not been met. Significant donated services are reported as support and expenses at their estimated fair value if specific criteria for recognition are met.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the Statements of Activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited based on management's estimate.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue, support and expenses during the reporting period. Actual results could differ from those estimates.

Presentation of Sales Tax

The State of Tennessee and counties within the State impose a sales tax on all of CBMC's sales to non-exempt customers. CBMC collects that sales tax from customers and remits the entire amount to the State. CBMC's accounting policy is to exclude the tax collected and remitted to the State from revenue and cost of sales.

Uncertain Tax Positions

CBMC, Inc. follows the guidance of FASB ASC 740, *Income Taxes*. Intangible Assets

CBMC owns intangible rights to a book entitled *Monday Morning Atheist*. The rights were acquired in 2012 for \$150,000 and are being amortized over 3 years. Amortization expense was \$50,000 and \$45,583 for the years ended December 31, 2015 and 2014, respectively.

CBMC also owns intangible rights to property at Cedar Lake. See Note 10 - Property Rights for breakdown of the intangible asset.

NOTE 3 – INVESTMENTS

CBMC follows FASB ASC Topic 820, which defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the inputs used to measure fair value and enhances disclosure requirements for fair value measurements. FASB ASC 820 maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available.

Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the transparency of inputs as follows:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of December 31. A quoted price for an identical asset or liability in an active market provides the most reliable fair value measurement because it is directly observable to the market.

Level 2 – Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of December 31. The nature of these securities include investments for which quoted prices are available but traded less frequently and investments that are fair valued using other securities, the parameters of which can be directly observed.

NOTE 3 – INVESTMENTS (Continued)

Level 3 – Securities that have little to no pricing observability as of December 31. These securities are measured using management’s best estimate of fair value, where the inputs into the determination of fair value are not observable and require significant management judgment or estimation.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument’s level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes “observable” requires significant judgment by CBMC. CBMC considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to CBMC’s perceived risk of that instrument.

A summary of the inputs used to value CBMC’s investments at December 31, 2015 and 2014, is as follows:

Upon the death of the annuitant (or the last joint annuitant), income distributions cease. The annuity payment liability is estimated based on the present value of expected future payments. Adjustments to the annuity obligation due to amortization of the discount and changes in life expectancy are included in the Statements of Activities.

Temporarily restricted net assets are available for donor specified ministry operations and projects. Net assets released from donor restrictions during the years ended December 31, 2015 and 2014, were used for various ministry operations and equipment purchases as specified by the donors.
